Education

Nanjing Normal University

September 2022- Present

Ph.D., Physical Electronics.

Kunming University of Science and Technology

September 2016- June 2019

Master of Engineering, Pattern Recognition and Intelligent Systems.

Chongqing University of Posts and Telecommunications

September 2012-June 2016

Major: Bachelor of Engineering in Information Security

Publications

- **Chen Z**, Jiang W, Ma L, et al. MEM: a new mixed ensemble model for identifying frauds[J]. International Journal of Information and Communication Technology, 2019, 15(3):294-303.
- Jiang W, **Chen Z**, Xiang Y, et al. SSEM: a novel self-adaptive stacking ensemble model for classification[J]. IEEE Access, 2019, PP(99):1-1.
- Shao D, Zheng N, Yang Z, et al. Domain-Specific Chinese Word Segmentation Based on Bi-Directional Long-Short Term Memory Model[J]. IEEE Access, 2019:1-1.
- Jiang W, **Chen Z**, Shao D, et al. Dynamic programming word segmentation algorithm based on domain dictionaries[J]. Journal of Nanjing University of Science and Technology, 2019, 43 (01) :67-75.
- Wen Y, Cai G, **Chen Z**, et al. The Stability of Large Complex Projects and Government[J]. Science and Technology Management Research, 2017, 37 (023) :233-239.

Research Experience

- **Analysis of Sleep Quality of Patients** **July 2017—January 2019**
 - To investigate the relationship between sleep quality and disease in different populations
 - To study the risk of other diseases in urology patients
- **Urology data analysis** **January 2018—July 2019**
 - Readmission analysis of patients
 - Entity identification, relationship extraction and event extraction of a large number of cases
- **Basic Research on Acoustic Tweezers Control for Biomedical Applications** **September 2022—Present**

Research Projects:

- Precise localization of transcranial ultrasound focus
- Study on acoustic vortices of arbitrary shape

Work Experience

- **Jiangxi Institute of Fashion Technology** **Nanchang China**
Teacher **July 2019—August 2022**
 - Responsible for teaching courses such as Data Mining and Linux Operating System

- Acting as the school coordinator for the National College Student Mathematical Modeling Competition

Professional Skills

- Proficient in Python, MATLAB, C++,C#, spark, hadoop series software, coding and system development capabilities.
- Use docker skilled, can use docker builds a variety of services, including gitlab, FTP, pypi - server, etc.
- Proficient in using Linux, grasps the shell scripting language, familiar with the use of git.

Extracurricular Activities and Awards

- Second prize of "Huawei Cup" the 14th China Graduate Mathematical Contest in Modeling. 2017
- First prize in the American Mathematical Contest in Modeling. 2015
- Second prize in the National College Students Mathematical Contest in Modeling. 2014
- Ranked 10th in the virtual stock prediction Weekly in the AI Challenge. 2018
- Second prize in Mathematical Modeling Contest of Chongqing University of Posts and Telecommunications. 2014
- Second prize of "Certification Cup" mathematical contest in Modeling.2017

Hobbies

- Badminton, table tennis, chess, reading
